

BL
A600

**Polymer
dispersant**

Product introduction

General purpose polymer dispersant

Chemical composition

Modified polyurethane polymer

Features benefits

1. Inorganic, organic pigments and carbon black versatility;
2. Matte powder, glass powder better scattered anti-Shen;
3. To improve the gloss, better anti-floating color effect.

Recommended use

1. Solvent-based coatings and inks are common;
2. Organic pigment concentrates.

Recommended dosage (Supply form)

Inorganic pigments	1-6%
Organic pigments	20-40%
Carbon black	30-60%

Technical data

Active Ingredients:	50±2%
Color (Gardner):	≤10
Density (g / cm3):	0.98
Exterior:	Light yellow liquid

Processing guidance

1. First dissolve the product in the grinding base;
2. Add the pigment evenly after grinding.

Storage and transportation

1. Cool and dry and ventilated, below 60 °C, not close to the fire;
2. The shelf life of the sealed container is three years.

Package

25 kg or 180 kg drums.

We provide these data and technical advice with our existing knowledge. However, because of the different application environment, please users according to the test application, we can not guarantee all the circumstances.
